## **AngloGold Ashanti Selects Modular Fleet Management**

**Tucson, Arizona – April 20, 2010**

Modular Mining Systems, Inc., the world leader in information management solutions for mining operations, announces that AngloGold Ashanti (AGA) has selected Modular as the global supplier of fleet management systems.

In November 2009, AGA signed a Master Agreement positioning Modular as the supplier of mine management technology to its open-pit operations. AGA selected Modular because it looks to standardize systems across their mines worldwide, to benchmark performance globally, and to share best practice across operations.

This agreement will be managed by the Modular Global Account Manager. A dedicated IntelliMine® Specialist will work exclusively with AGA to optimize the value delivered by Modular® solutions. The mines soon to install Modular technology include Cripple Creek & Victor, Geita, Iduapriem, and Navachab.

The deployment at Cripple Creek in particular has been especially satisfying for AGA. Modular initiated a Change Management process, and AGA received the first phase very well. "We are extremely pleased with the way Change Management Stage 1 went," said Vivien Hui, Global Manager, Mining Information Systems, AngloGold Ashanti (Colorado) Corp. "During this time Modular had zero safety incidents, established flexibility with our schedule, and maintained high quality of work within our multi-systems integration project."

### **About AngloGold Ashanti**

Based in Johannesburg, South Africa, AGA is the 3rd largest gold producer in the world with 21 operations worldwide. AGA's nine surface mines span four continents: Africa, Australia, North America, and South America. The remaining operations are underground, and AGA also has numerous, ongoing development projects underway. For more information, visit the AngloGold Ashanti website at [www.anglogoldashanti.com](http://www.anglogoldashanti.com).

### **About Modular Mining Systems, Inc.**

Modular is the market leader in providing powerful information management solutions to meet the needs of both open pit and underground mining operations worldwide. Modular sales and support offices are located in all key world-mining markets. For more information, visit the Modular website at <http://www.mmsi.com>
