[Modular Expands Value Add Services](#)

Tucson, Arizona – April 6, 2011

Modular Mining Systems, Inc., the leader in mining systems technology, announces an expansion of its Value Add Services offering. After maturing in tandem with mining industry leaders, Modular is now offering Change Management and Lean to all of its customers worldwide.

Change Management and Lean Services

Since it was first offered in 2004, Modular Change Management has guided process improvements in several mining operations. The service provides a structured approach for transitioning mining professionals, teams, and organizations to an improved future state. Modular certified change management consultants have exclusive IntelliMine® product knowledge and can offer solutions that cater to specific customer needs. Also, Modular Change Management is now an option with all deployments of the DISPATCH® and MineCare® systems.

Modular Lean services comprise a collection of time-proven techniques for mining and maintenance process improvement efforts. Modular Lean consultants collaborate with mines to increase efficiency and reduce costs on a comprehensive level. Lean services include training in Lean, Value Stream Mapping, and Process Capability Measurement.

About Modular Mining Systems, Inc.

Modular is the market leader in providing powerful information management solutions to meet the needs of both open pit and underground mining operations worldwide. Modular sales and support offices are located in all key world-mining markets. For more information, visit the Modular website at <http://www.modularmining.com>
